---

Constance,

Will this statement from me work?

“We are reaching out to request your permission to install Flock Safety cameras on your property. These cameras are a crucial tool in tracking vehicles entering and exiting our town, allowing us to identify vehicles that may have been involved in criminal activities.

By allowing us to place these cameras on your property, you will be supporting an initiative designed to enhance the safety and security of our entire community. This proactive approach helps deter crime and ensures a safer environment for residents, businesses, and visitors alike.

We are happy to answer any questions you may have about the cameras, their placement, or how the data is utilized to protect our town. Thank you for considering this important partnership to make our community safer.”

Thanks,

Chief

**Subject:** I0001 Flock Camera - Information Request

Good morning.

Felicia – Attached is the draft Easement Agreement to the private property owners for this project. Amanda has revised our standard lighting easement agreement to accommodate the camera scope. Please add this to the 10/22/24 legal meeting on Tuesday for review and approval by Richardson.

Chief and Taylor – The Easement List tab of the attached spreadsheet lists the 11 private property owners. Please reply by Wednesday, 10/30/24 with a brief summary that Amanda can use in her communications to the property owners requesting they meet with you. To help with scheduling, please also include any dates you definitely cannot meet.

Charmissha – The Easement List has three locations (highlighted in yellow) which need clarification, it is uncertain if the pole is located in the ROW or on private property. We prefer to have it in the ROW. Please adjust the pin on the GIS map and advise by Wednesday, 10/30/24, if possible.

Thank you all for your time.
