Good afternoon. Attached please find the list of cameras to set up on the Flock Gateway.

I have included the secondary streaming address for each. Please use this to minimize the traffic impact on our side.

A credential was added for viewing only for Flock. The UID is 'flock' and the PWD is '[redacted]'.

Please contact me if you have any issues. Note: the cameras with red IP address' are currently down. You can set these up but obviously you won't be able to stream right now.

Thank you in advance!

Bob

I'm working on getting through all of the cameras to link up now. Each one has to be reconfigured for Flock so as to prevent security issues.

I will have this buttoned up tomorrow/Saturday and forward the list w/credentials.

Good morning,

I pushed this morning's call to next week, as the only outstanding item is the list of cameras we need to bring into Flock.

Bob,

Please send the list as soon as possible so we can wrap up this integration.

Thanks!
