Sensitivity: Normal

Thank you Anabel.

Chief and Capt. Please let me know if you need anything from me on this.

Hi Constance,

I reviewed the camera counts by phase, and the confusion is likely coming from the rejected location in Phase 1.

Here is the breakdown:

- Phase 1 shows 16 LPRs and 4 PTZs installed, with 1 rejected location. The opportunity called for 17 LPRs in this phase, so it appears that one LPR did not move forward.
- Phase 2 shows 13 LPRs and 19 PTZs installed. The opportunity called for 12 LPRs and 18 PTZs in this phase, so one

additional LPR and one additional PTZ were added here.

Netting that out, the LPR count appears to wash overall, but the PTZ count ends up one over. Based on that, it appears an additional PTZ was added that was not included in the original contracts.

My director, Taylor, has been in contact with the Chief, and we can bring this up, as you have identified an additional location that needs a solar PTZ.

Let me know if you have any other questions.

Anabel

For full transparency, I'm unsure which items are on hold and which ones are not. @Anabel Pozzi can you advise?
