Good Afternoon,

I'm reaching out to share some exciting news. We will be launching Freeform Search soon. This has been our #1 most requested feature and will allow you to write exactly what you're searching for. For example, "car with damage", "van with ladder on top", "biker wearing black sweatshirt", "car with stripes".

If you are interested in getting early access to the feature, please let me know so that I can alert you when we launch the sign up sheet. We'll also share pricing details once we have it.

In the meantime, click here to register for Flock Safety's 2025 product launch to learn more about Freeform Search, our free API's and everything else we're working on in 2025.

Thanks,
Georgia
