Good Afternoon,

Please see my notes below highlighted in yellow. Constance, we can talk more in detail Tuesday. Hope everyone has a great, long weekend!

1. Chief to approve below deployment plan locations with newly identified owners
#11 – Legacy Plaza 1276 May River Road
#16 – Regina Brown – 126 Simmonsville Road, this will be approved only if the Chief likes the new recommended location per the email from Amanda on 1/10/25 11:01

2. If the Chief still wants to wait on SCDOT for #16, Georgia to advise what impact it will have on the contract terms since the camera cannot be installed in the most optimal location per the original deployment plan. @Taylor Ellison **- Can you please advise?**

3. Heather to forward the exact locations approved on the Beaufort County Encroachment Permit. These are needed for the pole attachment applications.

Locations on APPROVED Beaufort County Encroachment Permit: #01, #02, #06, #07, #09, #12, #13, P#003.
- #01, #06, #12 (#07 City) were all installed.
- #02 shows PPP: Low Country Presby Church - Co. Permit not required.
- #07 shows Town of Bluffton - Co. Permit not required.
Pending approval for additional locations on Beaufort County Encroachment Permit: #08, #17, P#001 and P#002

Pole attachment locations for your reference:
- #04: Town of Bluffton / Dominion
- #11: PPP Legacy Plaza Owners Assoc. / Palmetto (Solar powered)
- P#001: Beaufort County / Existing light pole. Pending permit.
- C#04: SCDOT / Palmetto Electric (under review due to SCDOT restrictions)

4. Heather to request Colby change #15 to Waff LLC 162 Bluffton Road with a flock pole. The prior location was Sea Smiles at 164 Bluffton Road with an existing pole but they are not on Town property. **This is now updated within the deployment plan.**

5. Team to revisit #C04 as SCDOT has been identified as the property owner. There is already a County traffic camera on a Palmetto pole at this location. Chief, if this pole is not an option, we can move the camera approximately 50' west and work with the New Riverside association if the tree coverage is not an issue. See attached and provide your comments. Engineer will need to rework the electrical plan requested for the prior location.

6. Heather to advise of any follow up needed regarding the encroachment permit for the few cameras that were inadvertently installed without notice to proceed from the Town. **Pending response from County - in the meantime, the application was sent for the 4 noted above.**

7. If the Town receives anything from Flock activating a term of the contract to include any payment request due to 5. above, Constance to advise Heather and she will work with Georgia to provide us with an email to disregard. @Clarkson, Constance **- based on our chat today, let's revisit this one. #09, #13 (needs Chiefs approval), and P#003 can be moved to install, along with any locations that you have received private property permission for.**

Good Morning,

Just wanted to drop you a quick message that I have a mapping call at 10A that might run a bit over. Apologies in advance if I'm a few minutes late, but I will be there!

Also, our permitting manager Felicia has been OOO, so I don't have a solid response on permitting items just yet, but I've nudged for an update again.

Look forward to talking soon!

Subject: RE: Flock Update and Request for Approval

Thank you, Amanda. My concern is that if a vehicle turns onto Simmonsville road from Bluffton parkway we will not be able to capture it as it leaves a blind spot in that area. if a crime occurs on Simmonsville Road we will have no data to reference. If we must wait (for an uncertain amount of time) for DOT to allow cameras on their property, then that is what we may have to do for now.

Chief

Subject: RE: Flock Update and Request for Approval

Happy to respond.

The original location selected was on the property of Fred Bolden, who is deceased (see Yellow marker). His estate is

locked in legal tie-ups so at this time there is not clear ownership of the property and therefore we cannot obtain an easement. The adjacent property closer to the parkway is owned by Beaufort County (the convenience center)(see Green marker). However, Flock determined the property line is too far away from Simmonsville Rd. to work for the cameras. The right of way of Simmonsville Rd is DOT owned, which we cannot place cameras in.

The subsequent property chosen by Flock for placement (see Red Marker) is in the powerline easement (and also not in Town limits) so that won't work. The next closest property is Sauls Funeral (See Purple marker).

The Bluffton Parkway is county owned which may work but from the looks of the property lines, the placement would still need to be on the North side of the Parkway and there may be too much tree coverage, but it is worth looking at. (See Blue marker.)

Please let me know if anyone has any further questions.

Thank you Constance. These have all been approved on the Flock Safety Website. As far as Camera Location #16 is there a way we can get it down south of Bluffton parkway somewhere instead of Sauls funeral home? If not we can work with having there but figured I would ask. Thank you again for all your help.

Chief

Subject: Flock Update and Request for Approval

Good morning Heather.

Below is a recap of our meeting this morning. I believe I captured everything, but please add anything I may have missed. Thank you.

1. Chief, please pull up the website and approve the below camera locations which have been adjusted due to various reasons - ownership, distance from road, etc.
    a. #04, #10, #13, #17, C#02
2. Scheduling
    a. First installation of locations without easements – February 28
        i. Lead time for Flock pole locations is 3 to 4 weeks from notice to proceed
        ii. Lead time for existing pole locations is 2 to 3 weeks from notice to proceed

iii. Target notice to proceed is 2/1/25

b. Second installation of locations with easements – March 31

i. Target notice to proceed is 3/1/25

3. Cameras Already Installed - #01, #06, #07, #12

    a. Four cameras were already inadvertently installed upon Flock's receipt of the Beaufort County Encroachment Easement for eight locations.
    b. Heather has confirmed that this unapproved installation will not trigger any terms to include payments due pursuant to the Agreement.
    c. Heather is reaching out to the Flock team to ensure the permit requirements were met prior to installation.

4. Prior to other installations, Flock will initiate a site survey of each location. If the site survey findings are not favorable for installation, the camera location will need to be relocated. Possible negative site survey results may include:

    a. Limited or no solar coverage
    b. Utility line interference
    c. Private property owner issues

5. Heather, Camera Location #16 has been relocated as it was in the power line easement. Please review the attached image and advise if Flock agrees with the new location at Saul's Funeral Home. If so, please update the database for the Chief's approval.
6. A recurring meeting with Flock will take place every Thursday at 10:30 am until the first approved installation.
